This week of camp has been a yearly favorite of old and new nature campers! Join us as we explore the Saveland Park pond through observation, sketching, Pleine Air painting, and frog watching. A trip to the Havenwoods pond will give us the up close and personal look at pond life as we use water magnifying glasses and field guides to identify species!

July 16–20 | Forests and Trees

From the roots to the limbs campers will discover parts of a tree and how important these huggable treats of nature are to humanity. Join us as we plant trees at Havenwoods and hike through forests!

July 23–27 | Insects AKA Wings and Things

Head, thorax, abdomen! Those are just a few of the insect parts that campers will explore as we take a close look at the fascinating world of these amazing wonders of Nature!

July 30–Aug 3 | Animal Homes
